

EVALUATION OF CSU ADVANCED POTATO CLONES ON GROWER FARMS

By the San Luis Valley Research Center Potato Agronomy and Pathology Programs
Colorado State University

Hosted By Grant Mattive (Worley Family Farms), Art Holland (Holland Farms),
and Tyler Mitchell (Mike Mitchell Farms)

We will visit the three farms to see the performance of CSU advanced potato clones grown under different field management practices and their resistance to natural disease pressures.

DAY: Tuesday, August 20, 2024

LUNCH: 12:00 noon
San Luis Valley Research Center
